

COST Action 20131: Efficient Justice for All

DOLOMITES Workshop:

“Scientists meet to produce research results”

Alba di Canazei, TN

Introduction

The goal of the COST workshop is to continue analyzing the available data, the country reports and to work on joint research initiatives, for instance on the chapters for the books in the making. Ideally, the workshop should produce some research ideas to work on for the following months and whose preliminary results may be presented in the September Workshop at Hasselt University. The specific objectives of the workshop are the following.

- 1) To continue on the research interactions for researchers involved in Southern European countries, to make progress on ideas shared in the previous workshop organized in Pamplona.
- 2) To give a chance to meet to researchers involved in Western European countries, as they have not had a regional workshop of their own.
- 3) To offer a ‘logistic platform’ to all COST colleagues who may find useful to meet with other participants in a focused but relaxed setting.

We plan one working week of interactions, but interested participants may join for one-two days only, if they prefer.

Program (Tentative)

June 30th, Sunday

16.00 – (Free) Bus leaving Verona PORTA NUOVA Train Station (Sign on the bus: “Cost Workshop -- Canazei”)

July 1st, Monday - Data collection and country report preparation - Progress so far
